

RIPCORD™ **Super-RIPCORD™** *Ventilator/Stringer*

Engineered for Performance

HURCO Technologies provides the right tools to make your efforts safer, highly productive and more profitable.

HURCO's RIPCORD™ and Super RIPCORD™ have been engineered to quickly string sewer lines and create a safe, unobstructed manhole work environment.

Vent Kit available for blow-in ventilation when cross ventilation is not practical.

RIPCORD™

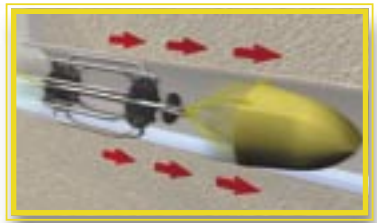

PERFORMANCE COUNTS

- Powerful! Up to 8,700 CFM (depending on model). No competitive model comes close.
- Doesn't just dilute dangerous gases and dust, it **ELIMINATES** them!
- Allow workers to safely enter work area sooner with Ripcord's "cross ventilation" method.
- Cross-ventilation method eliminates the necessity for a hose creating an unobstructed workspace.
- Ensures better communications because unit is located away from immediate workspace.

If any HURCO product does not perform exactly as we claim, let us know within the first 10 days after purchase and we'll refund your money.

Using HURCO's Stringer Kit the RIPCORD™ provides the industry's fastest line stringing setup -- manhole to manhole in 17 seconds or less.

(Patent #6751881)
